Reshaping the provision of legal services

WHY WE ARE THE LAW FIRM OF CHOICE

Our Firm has been designed to cover substantial gaps in the legal services market. To achieve this we had to delve into the current state of the market and discover what was wrong about it. Our conclusions were used to build our unique approach. We differentiate ourselves in the following elements:

OUR PRACTICE AREAS

- COMMERCIAL LAW
- COMPETITION LAW
- CORPORATE LAW
- ENERGY LAW
- FINANCIAL LAW
- INTELLECTUAL PROPERTY LAW
- TRUSTS AND ESTATE PLANNING
- TAX PLANNING
- IT & E-COMMERCE LAW
- TELECOMMUNICATIONS LAW

1. **COSTS** It is our commitment to ensure that our Clients not only receive certainty as regards our legal advice and legal support but can also be certain of how much they are paying us for our services. We are not tied to the hourly rate. Indeed, we have been the first to observe that billing by the hour is meeting increasingly staunch resistance by purchasers of legal services in the post-crisis business environment. We therefore offer a large percentage of our legal services at fixed rates, formulated according to the input of our Clients and their requirements and provided to our Clients prior to our engagement.

2. **EXPERTISE** We are all painfully aware of generalized services that fail in addressing our precise needs and requirements. Our Firm has been designed to meet the legal challenges faced by some crucial industry sectors. The energy, IT, telecommunications, media and life sciences industries now have a law firm to rely on for all their legal needs. Our cross-practice expertise eliminates the need for multiple outsourcing of legal support in these industries and also covers all issues that might arise with respect to their corporate transactions, regulatory compliance, competition law issues, tax matters and disputes.

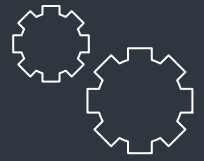

3. **HUMAN CAPITAL** We treasure diversity and strive to operate in a truly democratic environment in respect of anyone who interacts with our Firm, from our Clients to State Authorities and from Colleagues in the wider legal community to our very own Staff.

Our tailor-made provision of services means that we conduct all of our business with the highest sense of responsibility of being both servants of Justice and providers of legal services. As a result, apart from being professionals of the highest caliber, it is our Firm's commitment that our lawyers are also active contributors to Law through both the provision of clear, practical and innovative legal solutions and their own input to jurisprudence.

4. **OUR ETHOS** Our [values](#) are the first element we want our Clients to be aware of before, during and following our cooperation. This allows them to know the levels of our ethos and embark confidently in forming a fruitful relationship with our Firm that can outlast the provision of our services.

We always seek to clearly identify our Clients' requirements and expectations and challenge them when necessary so as to introduce customized solutions which address their needs and serve their targets, having their best interests in mind. Our Firm strives to create and maintain unique lawyer-client relationships that are based on trust, integrity and reliability.

an industry-focused provider of legal services

BUSINESS-FRIENDLY JURISDICTION

Cyprus is one of the world's most attractive jurisdictions for investment. An EU Member State, a flourishing Economy and the EU's most business-friendly tax regime, are some of the reasons Cyprus features at the top of the list for establishing holding entities and international trusts, among other opportunities.
